

CONSULTING

The AS technologies IT consulting services improve the way our clients do business. We work with our clients to create solutions that that overcome business challenges delivering maximum efficiency and a rapid return on investment. Our consulting services are broken into two parts:

CONSULTING (PRE-SALES SOLUTIONS)

These, like the name implies include pre-sales client oriented services such as:

- User requirement feasibility/survey
- Technology Needs Assessment and GAP Analysis
- User specific design solutions
- User specific personnel recruitment

CONSULTING (AFTER-SALES SOLUTIONS)

These services include:

- Maintenance/Repair services
- Preventive maintenance
- Curative maintenance
- One-Call Maintenance/Repairs.
- On-line or On-site support on equipment supplied.

With over 15 years of experience delivering technology solutions, high delivery and service excellence are guaranteed.
